

Head of administration of the Municipal formation "Karsunsky district" of the Ulyanovsk region Chubarov Vladimir Borisovich

Dear Sirs!

I appeal to you, business people, on behalf of the residents and administration of the municipality "Karsunsky district". Today Karsun district is a convenient platform for the implementation of your ideas, the development of production. There are areas for production, high-quality forest resources, mineral deposits. For my part, I guarantee comprehensive and full support of conscientious and effective owners in industry, agriculture and business. The priority direction of the policy of the administration of the municipality and my work as The head of the district administration is to form the most favorable investment climate in the district, international and interregional relations, the refraction of negative trends in the development of the economy of the district. All this is done for the benefit of the residents of the district, its future. Karsun district is open for long-term and fruitful cooperation. Welcome!

Historical information

Founded in 1647 by decree of Tsar Alexei Mikhailovich Karsun was an important strategic turn of the Karsunsky-Simbirsk defense line, the construction of which was headed by the steward and the Governor Bogdan Matveyevich Khitrovo. According to one version, the name of the city came from Korsun Cossacks transferred here from Ukraine. According to others—from the Tatar "Kara su "(black water) or from the Chuvash" Kara su" (pine water).

Here, as in other frontier fortresses, were our ancestors, protecting it from the raids of the nomads of the Eastern frontiers of Muscovy. They mastered the rich and vast Volga region, founded cities and villages. Since 1647, Karsun counts its history, pouring a small stream into the turbulent history of great Russia.

Geographical location

Karsunsky district is situated in the West of Ulyanovsk region, on the high chalk hills, at the confluence of two rivers - Profit and Karanka. In the West the Karsunsky district adjoins with the Republic of Mordovia, in the North-with Sursky, in the East - with Maynsky, in the South - with Veshkaymsky and Inzensky areas of the Ulyanovsk region. The territory of the district is 1768.6 km². The structure of the district is represented by two urban and six rural settlements. The administrative center of the district is R. p. Karsun.

Attractions R. p. Karsun

In one of the picturesque corners of Karsun there is a complex of majestic buildings of shopping malls, built in the style of Russian classicism. The author of the project of Karsun trade rows is Mikhail Petrovich Korinsky - one of the brightest architects of Russia of the first half of the XIX century - the pupil of the ingenious Russian architect, academician Voronikhin. Here, since 1660, the annual summer Trinity fair gave more income than the provincial Simbirsk team fair.
